

Partnership/Sponsorship Packages

The CRHNetwork was established in 2003 in response to a growing demand to promote and strengthen disaster risk reduction and emergency management in Canada. The Network creates an environment in which the hazards research, education and emergency management practitioner communities can effectively share knowledge and innovative approaches that reduce disaster vulnerability.

CRHNet calls attention to the need for creating partnerships among academics, the hazards research education, and emergency management practitioner communities, across all sectors. The network seeks to enhance the understanding of, and provide tools for, the development of comprehensive programs to mitigate, prepare for, respond to and recover from all types of hazards - natural, technological or human-induced.

You are invited to join us through our Partnership/Sponsorship opportunity at the Canadian Risk and Hazards Network Symposium. The theme for this year's symposium is:

Living the Lessons: From Impact to Insight

November **May 12-14, 2026** at the **Northern Alberta Institute of Technology** in Edmonton, Alberta. NAIT is located on Treaty Six territory, a traditional homeland for the First Nations and Métis Peoples.

To become part of this important partnership and promote the importance of emergency management in Canada contact our **Sponsorship Chair: Laurie Pearce** (lauriepearce@shaw.ca).
